

5 reasons

This is why customers trust Spiegelberg

Est. SINCE
1986

1. Over 30 years of experience

Spiegelberg was established in 1986 in Hamburg and since then has been designing, manufacturing and selling state-of-the-art medical technology. Spiegelberg specialises in ICP monitors, ICP probes, catheters & EVD kits and IAP catheters.

2. Globally accredited

Spiegelberg is now an international brand selling devices in more than 60 countries. Customers all over the world not only trust our medical solutions but also appreciate the open and committed communication with a single contact person.

3. Genuine pioneering work

Discovery instead of administration: our young team has inherited this attitude from previous Spiegelberg generations. We never simply accept technological standards without question. Every day we enthusiastically work to meet the needs of our customers with new developments.

MADE
IN
GERMANY

4. Quality – Made in Germany

With Spiegelberg you have the advantage of German quality, known all over the world for reliability and precision. The certification of our quality management programme by [DIN EN ISO 13485](#) confirms this.

5. Important partnerships

Innovation is rarely the product of working alone but rather the result of constructive partnerships. We work together with accredited research institutions, neurosurgical specialists and leading German hospitals and university hospitals.

Our philosophy

Spiegelberg represents over 35 years of tradition in the manufacture of medical devices designed for the demanding requirements of neurosurgery. We place great emphasis on partnerships with equals and fair, trusting relationships.

Spiegelberg is noted for the high quality of its products – Made in Germany. We also place great emphasis on sustainability in development and production.

Our company values

Spiegelberg has not only defined company values but also lives them. Customer orientation, reliability, quality, responsibility and simplicity are the key points of our actions – essentially people. Only with satisfied employees treated with fairness and respect is it possible for us to manufacture innovative medical technology for neurosurgery. Neurosurgeons and medical professionals trust the high quality and simple operation of our devices and the benefits for patients.

Our mission

All Spiegelberg devices have been designed for safety in diagnosis, minimally invasive treatment and improvement of the health of patients. We are continuously improving the quality of our devices and continuously researching medical engineering solutions that will help people.

Our visions

We want to be the first contact partner for doctors and hospital professional all around the world. As a reliable business partner, we understand the requirements of our customers, we know how doctors, neurosurgeons and medical professionals work and the challenges they face every day. Our medical devices are designed to make their work easier by enabling them to give their patients the best possible treatment. We want to set standards in health and support for customers and patients all over the world with innovative medical solutions. We also want to provide our employees with a secure workplace and to keep it secure with continuing growth.

This is Spiegelberg

Your medical product is our passion: At Spiegelberg, our young team works in concert to provide you with neurosurgery products that meet the highest quality standards. Our company has been in business since 1986 and today, supplies customers in almost 70 countries around the world.

All our products are "Made in Germany". The latest technical advancements are adopted to further improve our products. To do this, we work together with renowned clinics.

We rely on the highest standards in quality

We do everything we can to ensure that our products function reliably. In some cases, our products undergo one-hundred per cent testing to ensure the highest level of reliability. For this, we employ numerous employees in quality management and product safety.

Our company holds all certificates required for medical technology. Even if our team is relatively young, we have acquired long-standing production experience. Furthermore, all our employees have been thoroughly trained for their tasks.

All our products are "Made in Germany". The latest technical advancements are adopted to further improve our products. To do this, we work together with renowned clinics.

But not only our products boast outstanding quality: For us, our customers' needs are paramount. You can count on reliability when it comes to deliveries and everything else we do. We're well aware of our responsibility when it comes to manufacturing your products.

We are aware of our responsibility

In the future as well, we intend to continuing being a specialist for products in neurosurgery. To ensure this, we are always in close contact with our customers and continually work towards supporting our employees and cultivating team spirit.

We are committed to the issue of sustainability. We strive to develop new products that use resources as efficiently as possible. We try – wherever possible – to reduce plastic and avoid waste.

Thanks to our philosophy as a partner for our customers, our company has managed to grow significantly in recent years and expand its customer base.

We want to continue doing so: We want to be your no. 1 partner for medical staff around the world and set new standards.
